## START CLICK

Functionality is the main feature of the Start Click line. Developed to integrate furniture in a discreet and functional way, the Start Click line has an opening and closing system for access to accessories through a click system. This system allows accessories to be hidden when they are not in use, increasing security, facilitating cleaning and making the furniture's connectivity installations more discreet. It is already equipped with two Brazilian standard sockets and a Square accessory, which provides a USB A output and a USB C output.

Technical characteristics :

- Made of steel with epoxy paint in black and silver
- Available in the option of 3 modules, two 2P+T 10A sockets and a Square accessory (USB A + C)
- 100-240V 50-60Hz
- 1800mm cable with 10A 2P+T plug
- Dimensions: 265x118mm
- Comes with installation manual

## START SQUARE

Start Square is an intelligent solution that, despite the simplicity of the idea and its construction, brings several advantages to the furniture manufacturer: In addition to including the Square accessory, which provides a USB type A and a USB type C, it also comes equipped with a "faceplate", a covering plate that allows, in addition to hiding the fixing screws, to be painted in the color of the furniture.

Technical characteristics :

- Metallic faceplate painted black but can be customized by the furniture manufacturer
- Fixed using double-sided tape Can be used on tables, sofas, armchairs, workstations, e
- It has USB type A and USB type C
- Input 100-240V 50-60Hz and Outputs USB A (5V 2.5A) and USB C (5V 3.5A)
- It has a cable with a Brazilian standard 2-pin plug measuring 1800mm -
- 10A 250V
- Power supply integrated into the product

**\*PLUGS AND SOCKET INLETS CAN BE MODIFIED ACCORDING TO EACH COUNTRY'S STANDARDS.**
