LDT37 Series Epic Gas Spring Monitor Arms

It has once again raised the bar in monitor arms - offering a choice of Gloss Silver or Space Grey Apple-esque aluminum finish that allows it to complement today's tech look. Users will enjoy the quick release VESA mount that makes removing or installing displays nearly effortless. Best of all, the LDT37 Series arms swivel, tilt and adjust side-by-side, allowing for precise positioning of the displays to create the most personalized working space.

Workplace
Desk to Power

LDT51 Series Armor Gas Spring Monitor Arms

The glaring finish adds an eye-catching modern appearance to any home or office while adding increased versatility to monitor viewing. Designed using quality components and tested for long life, the LDT51 Series is an excellent choice in next generation monitor arms.
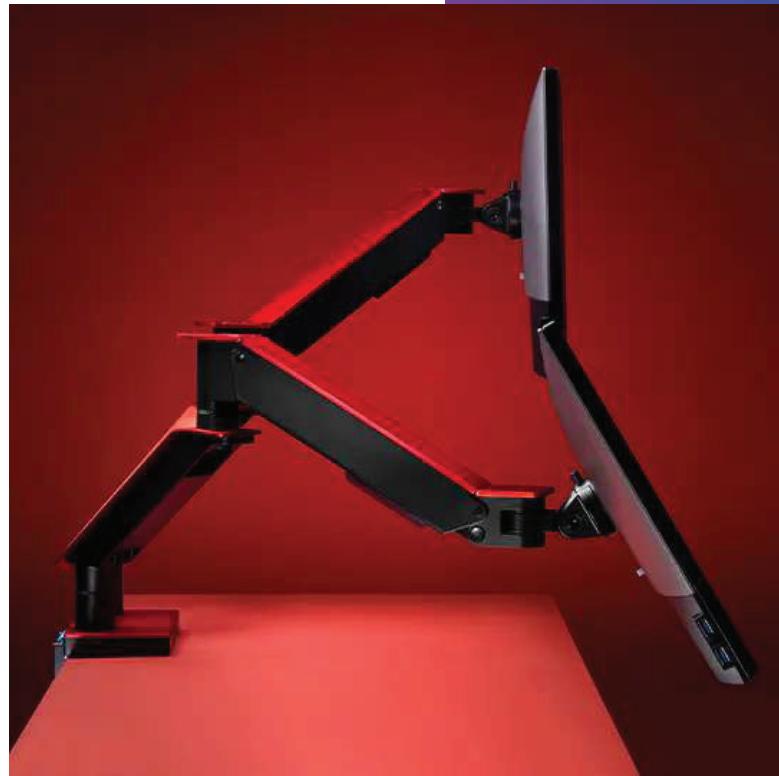

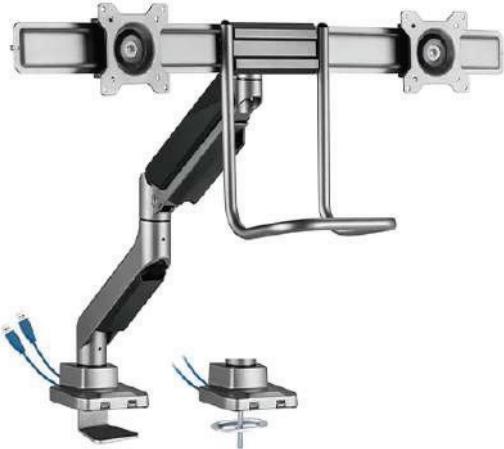

LDT52 Series Heavy-Duty Gas Spring Monitor Arms

Designed for most 17"-35" monitors and holds up to 15kg/33lbs, the LDT52 Series Economy Heavy-Duty Gas Spring Monitor Arms are perfect for heavy and oversized displays. With absolutely great prices, the LDT52 series is one of the best choices to bolster your sales!
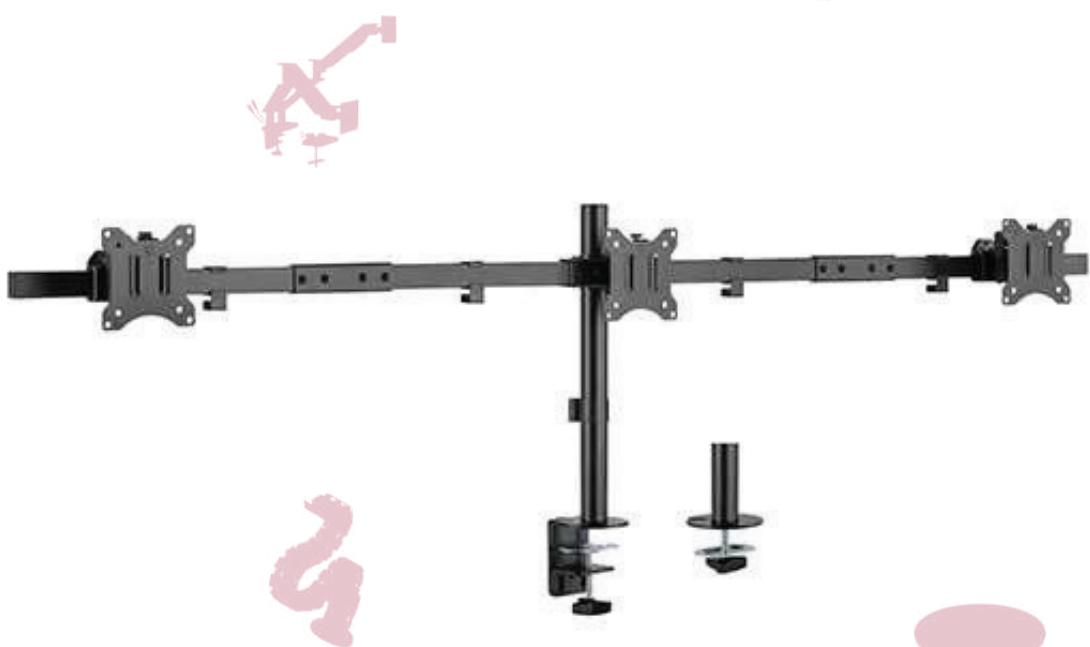

LDT57 Series Multi-Display Monitor Mount

It's not often a single series of products can meet the needs of so many users–
but the LDT57 Series does just that. Available in various configurations for custom
applications, the LDT57 Series create a line of monitor arms that almost cover the
broadest spectrum of viewing needs. Whether a single monitor or six monitors are
needed, mounted or free-standing, the LDT57 has the answer for individuals,
graphic designers, gamers, financial analysts, surveillance monitoring and more!

Workplace
Desk to Power
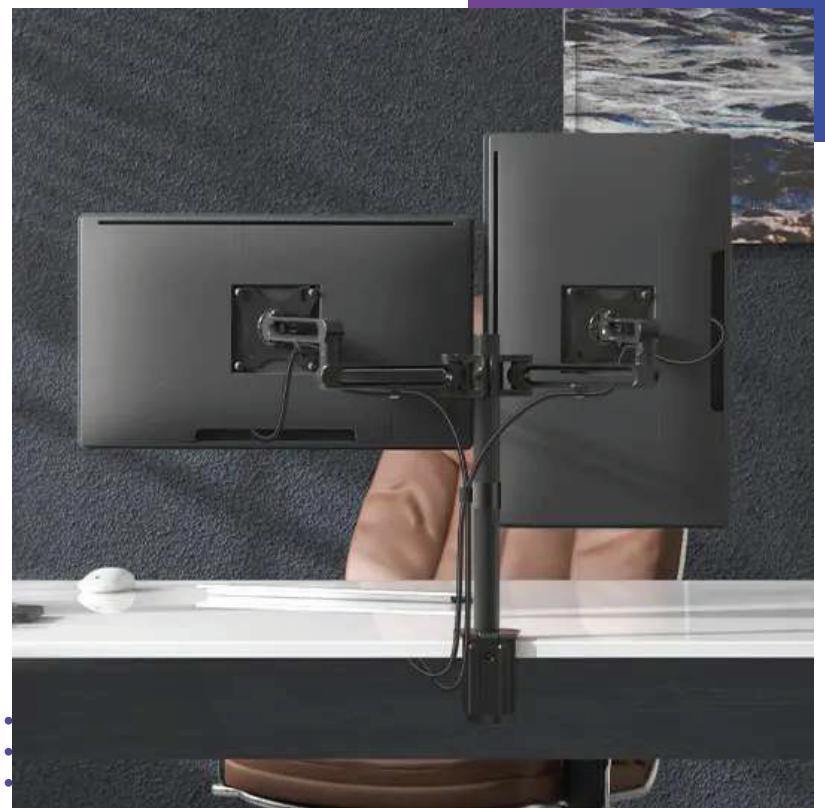

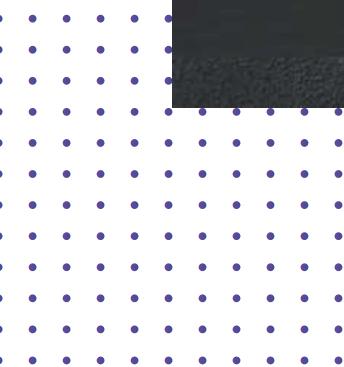

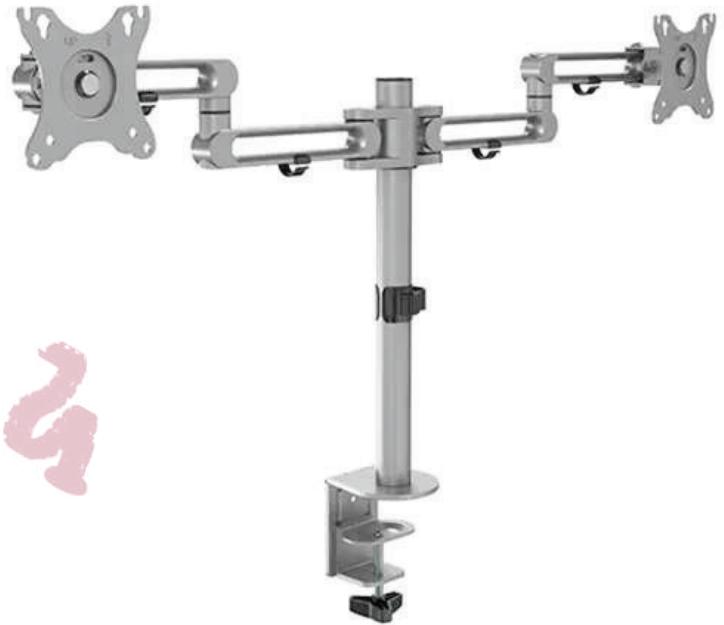

LDT30 Series Stylish Articulating Monitor Arm

The LDT30 Series combines value and versatility into a single product solution. Constructed with premium aluminum, the production features a comtemporary appearance yet with versatility. With two base options (clamp and free standing base), LDT30 can fit any desktop that you need. Maximize your desktop space while providing the best viewing option for your eyes – choose the LDT30 Series today!

LDT49 Series Slim Spring-Assisted Monitor Arm

LUMI's LDT49 Series Slim Spring-Assisted Monitor Arms is honored to win the Design Award of iF [2021]! Featuring slim arms and outstanding flexibility, the LDT49 Series Monitor Arms combine great looks and smooth movement resulting in a better work experience. Ideal for applications requiring frequent display adjustments, including financial analysis and creative work.
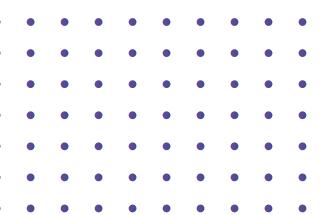

reddot winner 2021

LDT50 Series Halo Spring-Assisted Monitor Arm

LUMI's LDT50 Series HALO Spring-Assisted Monitor Arms is honored to win the Red Dot in Red Dot Design Award [2021]! After more than 10 years of designing and manufacturing monitor arms, LUMI introduces the disruptively innovative Monitor Arms. A milestone in industrial design, the iconic ring-shaped aperture places the LDT50 Series into the spotlight, where they are no longer simply monitor accessories, but tech gadgets in the workplace. Beauty is more than skin deep, as the quality internal spring mechanism provides smooth, reliable and effortless monitor movement.

Workplace
Desk to Power
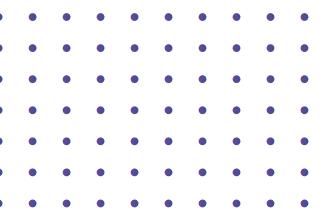

LDT48 Series Pole-Mounted Gas Spring Monitor Arm

With robust construction and effortless adjustments, the LDT48 Series Gas Spring Monitor Arms firmly hold the displays above the work surface, freeing-up valuable desk space. Perfectly add increased versatility, organization and comfort to any home or office work area.

LDT20 Series Classic Spring-Assisted Monitor Arm

Offers a slim aluminum mechanical spring design that is not only elegant but offers the performance and quality needed for monitor viewing and adjustment. With the new top mounting feature, installations can be made from above the desk, quickly and easily and you will no more crawl under desks on your hands and knees!

XMA-06 Reinforcement Mounting Plate Kit

For users experiencing instability in their monitor arm mount, the XMA-06 provides the most simple and affordable solution for a more firm, secure and safe Monitor Arm installation. The large and sturdy mounting plates distribute weight load while protecting the desktop from damage. A two-piece design with preset holes allow the plates to work with most any clamp or grommet base. Anti-slip pads ensure stability while preventing surface scratches. Available in black, white and silver to adapt to different desks and monitor arms.

PD 4 Pop Up Power Outlet

The PD 4 Pop-up Power Unit is a sleek and contemporary power solution that comes equipped with multiple socket outlets. These outlets include a 3-pin SA Socket outlet (164-1), a 2-pin SA Socket outlet, and a New SA 3-pin outlet (164-2). The top cap of this power unit features a smooth round shape and can be effortlessly raised or lowered using a chrome handle. Available in a variety of colours, it s eamlessly blends into any style of decor. Designed from high-quality aluminium, the PowerDock 4 also boasts a built-in seal underneath the top cap, ensuring water resistance when closed. Not to mention, it incorporates a 15A Resettable Thermal Overload Protection Switch for enhanced safety.
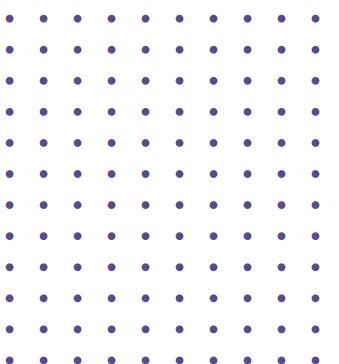

PD 2 Pop up Power Outlet

The PD 2 concealed power outlet system is a sleek addition to your workspace, featuring three power outlets. It uses an advanced German gas strut mechanism to easily pop up from a flush-mounted position when needed, and retracts back down to keep your desk neat. Safety is a priority with the PD 2, which is splash -resistant when retracted and includes built-in overload protection to safeguard your devices. Experience the perfect blend of style, convenience, and safety with the PD 2.
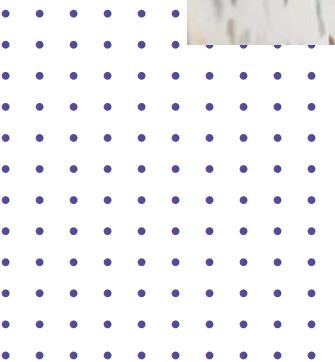

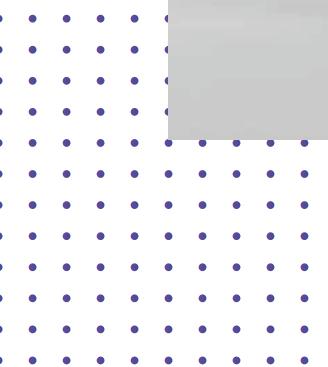

PD 3 Pop up Power Outlet

The PD 3 Pop Up Power is designed to offer convenience through its various outlet options. Drawing inspiration from our popular product range, this power unit combines essential features into a sleek design. It includes 1 x SA 3-pin, 1 x round 2-pin, 1 x new SA 3-pin, 1 x SA 3-pin (Below the surface), and 1 x USB Port. Additionally, the lid is equipped with a built-in Dual USB Smart DCP that ensures fast charging for most smart devices.

Gemini

The Gemini Pop Up Power Unit offers a unique, double-sided design that seamlessly blends with your workspace. Equipped with a state-of-the-art gas strut mechanism, it seamlessly raises the unit from flush-mounted position. When not in use, the Gemini sits flush with the desk surface. But it's not just about functionality. Safety is also a priority. That's why the Gemini has overload protection, and is splash-resistant when closed and spill-resistant when open.

One-Touch Boardroom Power Outlet

The electronically operated One-Touch epitomises sophisticated boardroom connectivity. Driven by a high-performance German motor, this state-of-the-art solution operates with a single, effortless touch. It smoothly rotates to reveal power outlets, blending modern technology with elegant design. Its ultra-low profile ensures it sits nearly flush with the work surface when not in use, yet it gracefully elevates to a raised position during operation, effectively minimising the risk of liquid ingress. The One-Touch offers both style and practicality in one seamless package.
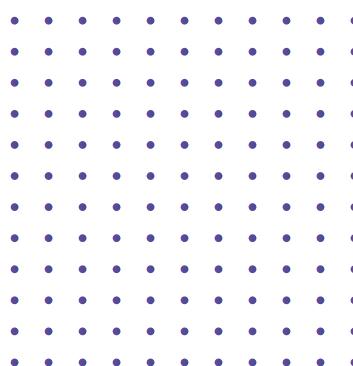

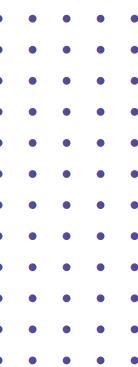

Apex Power Unit

The Apex unit can provide multiple charging capabilities in any waiting area. A few ideal locations for this unit could include airports, banks, hotel lobbies, bus / train stations, hospitals as well as any office reception area and so much more.

Workplace

Alpha Workstation Power Unit

The Alpha range is a power solution that can be tailored to suit your exact requirements. The Alpha was designed as a clean and simple product with functionality at its core. There are a huge variety of customisable options to choose from, including protection modules, timers, data / voice and audio visual solutions to suit your every needs.
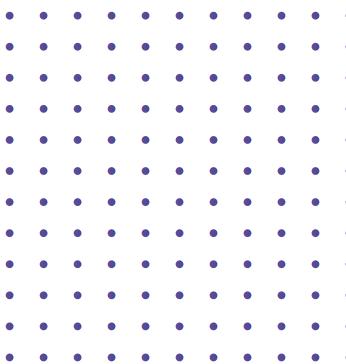

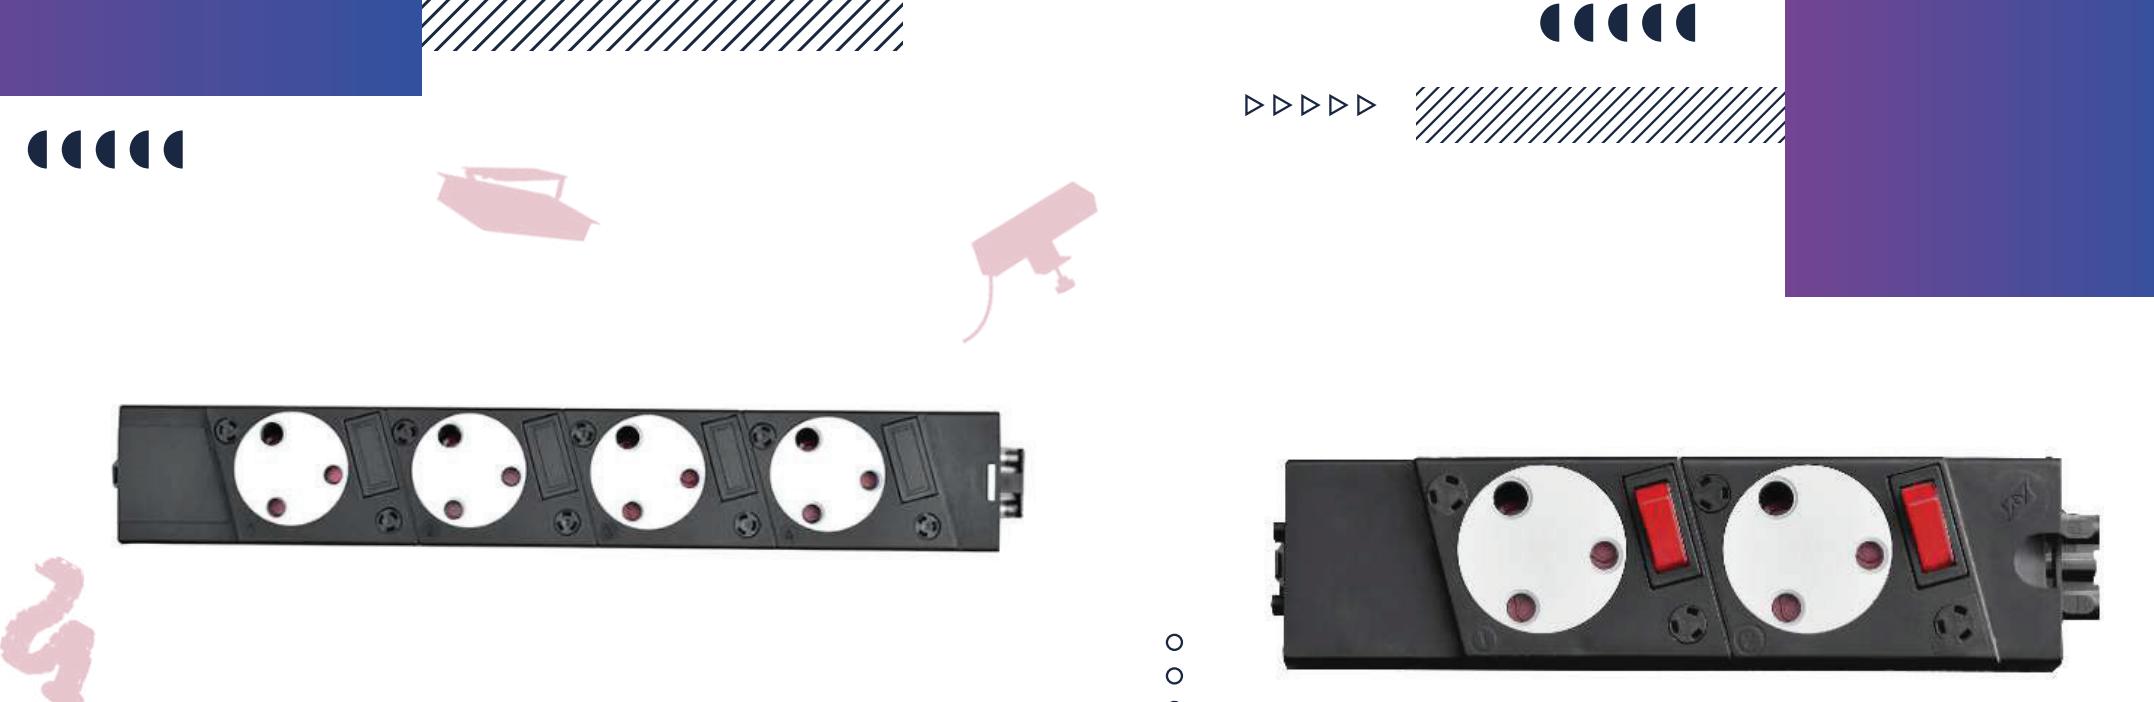

Oblique Workstation Power Outlet

The Oblique range offers a versatile electrical power system, available in two or four-way outlet configurations, with a limited stock of the three-way option. Constructed from high-grade plastic, each version of the Oblique range can be tailored with various switch and fuse options to suit your needs.

Switch options include:

* No switch
* One master switch
* Individual switches for each power outlet
* This flexibility ensures the Oblique range can be customised to meet the
* specific requirements of your environment.
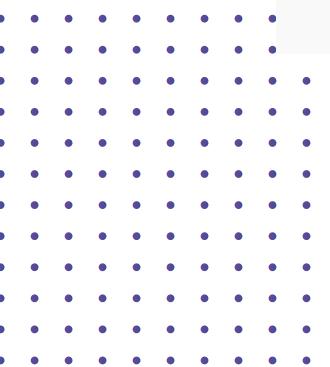

PUNTO V3 Wireless

The PUNTO-V3 is a modern charging solution that can be installed through any surface with an 80mm diameter hole for a mounted feel that elevates and declutters any workspace. With up to 15W/10W/7.5W/5W wireless charging capabilities every device is catered for. The Punto V3's revolutionary design features 4 USB-C charging ports for a combined total charging power of 170W. Each of these USB-C ports shares an 85W power supply with Quick Charge (QC) and Power Delivery (PD) technology, to ensure that all your devices remain powered up. Optional, alternative configurations are available by request. The PUNTO V3 Wireless also includes a range of built-in safety features, including temperature protection, foreign object detection (FOD), overcurrent protection and undervoltage protection so that you can power your space with the PUNTO V3.

Optima Workstation Power Outlet

The Optima Power Outlet System is your ultimate solution for a tailored office setup. It is a power unit that you can customise perfectly to your needs, with options for power outlets, switches, protection devices and voice/data connections. Its spacious housing accommodates essential protection modules like circuit breakers, fuses, and filters, ensuring comprehensive safety and functionality.

With the Optima, you get not only a versatile power solution but also seamless access to power right at your desk, transforming your workspace with convenience and style.
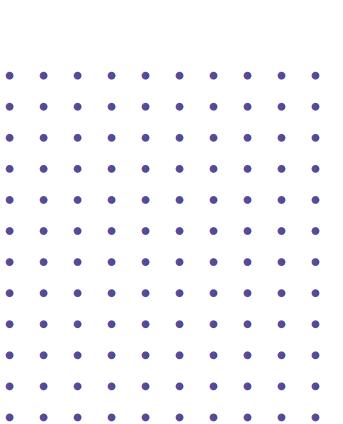

Pyramid

The Pyramid 3-Sided Power Distribution Unit offers an innovative three-sided design. This unique configuration ensures that power and charging options are accessible from any angle, whether it's placed in a boardroom, on your desk or beside your bedside table. It features AC outlets, USB-A and USB-C ports, and a built-in wireless charger on top. Available in various finishes with a stylish fabric top, the Pyramid blends seamlessly into any environment, making it a practical addition to any workspace or boardroom.
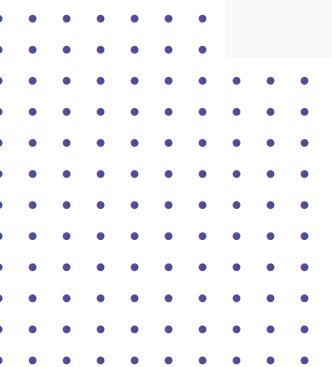

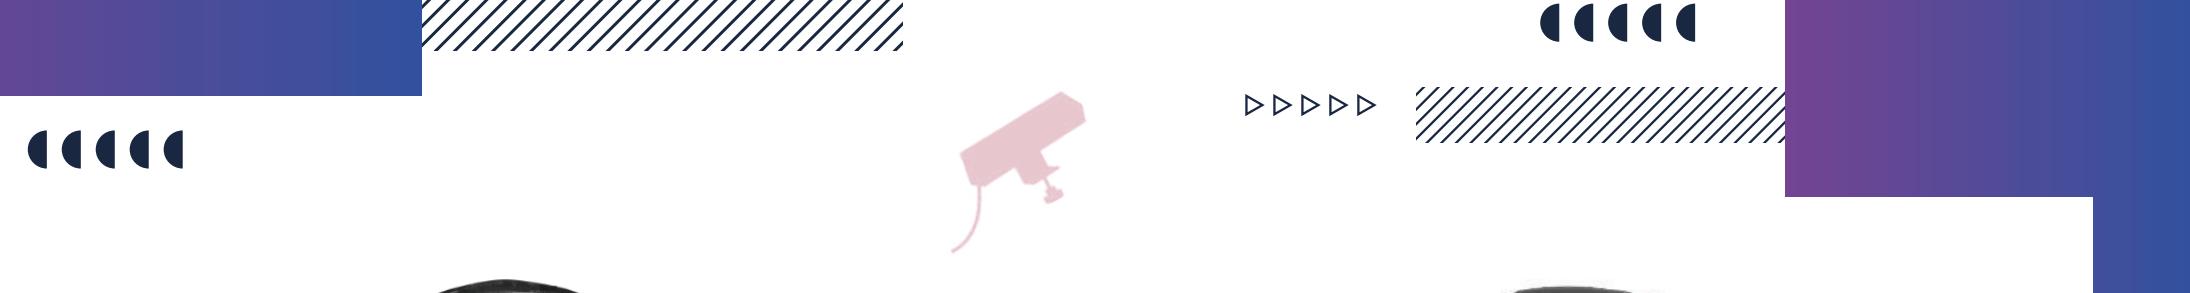

PUNTO Extreme

The PUNTO EXTREME is a perfect power outlet for any workstation surface. With an intuitive wireless charging pad built in the lid of the outlet, and a USB-C and A, (optional USB configurations available) powering your devices is effortless. The innovative rotating lid allows you to reveal the sockets and USBs while also charging your device wirelessly at the same time. Installed via a standard 80mm hole and secured with a locking ring below the surface allows for an incredibly efficient use of wasted space.

Workplace
Desk to Power
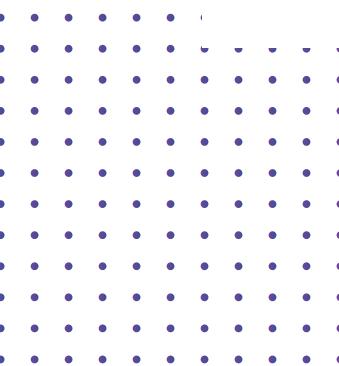

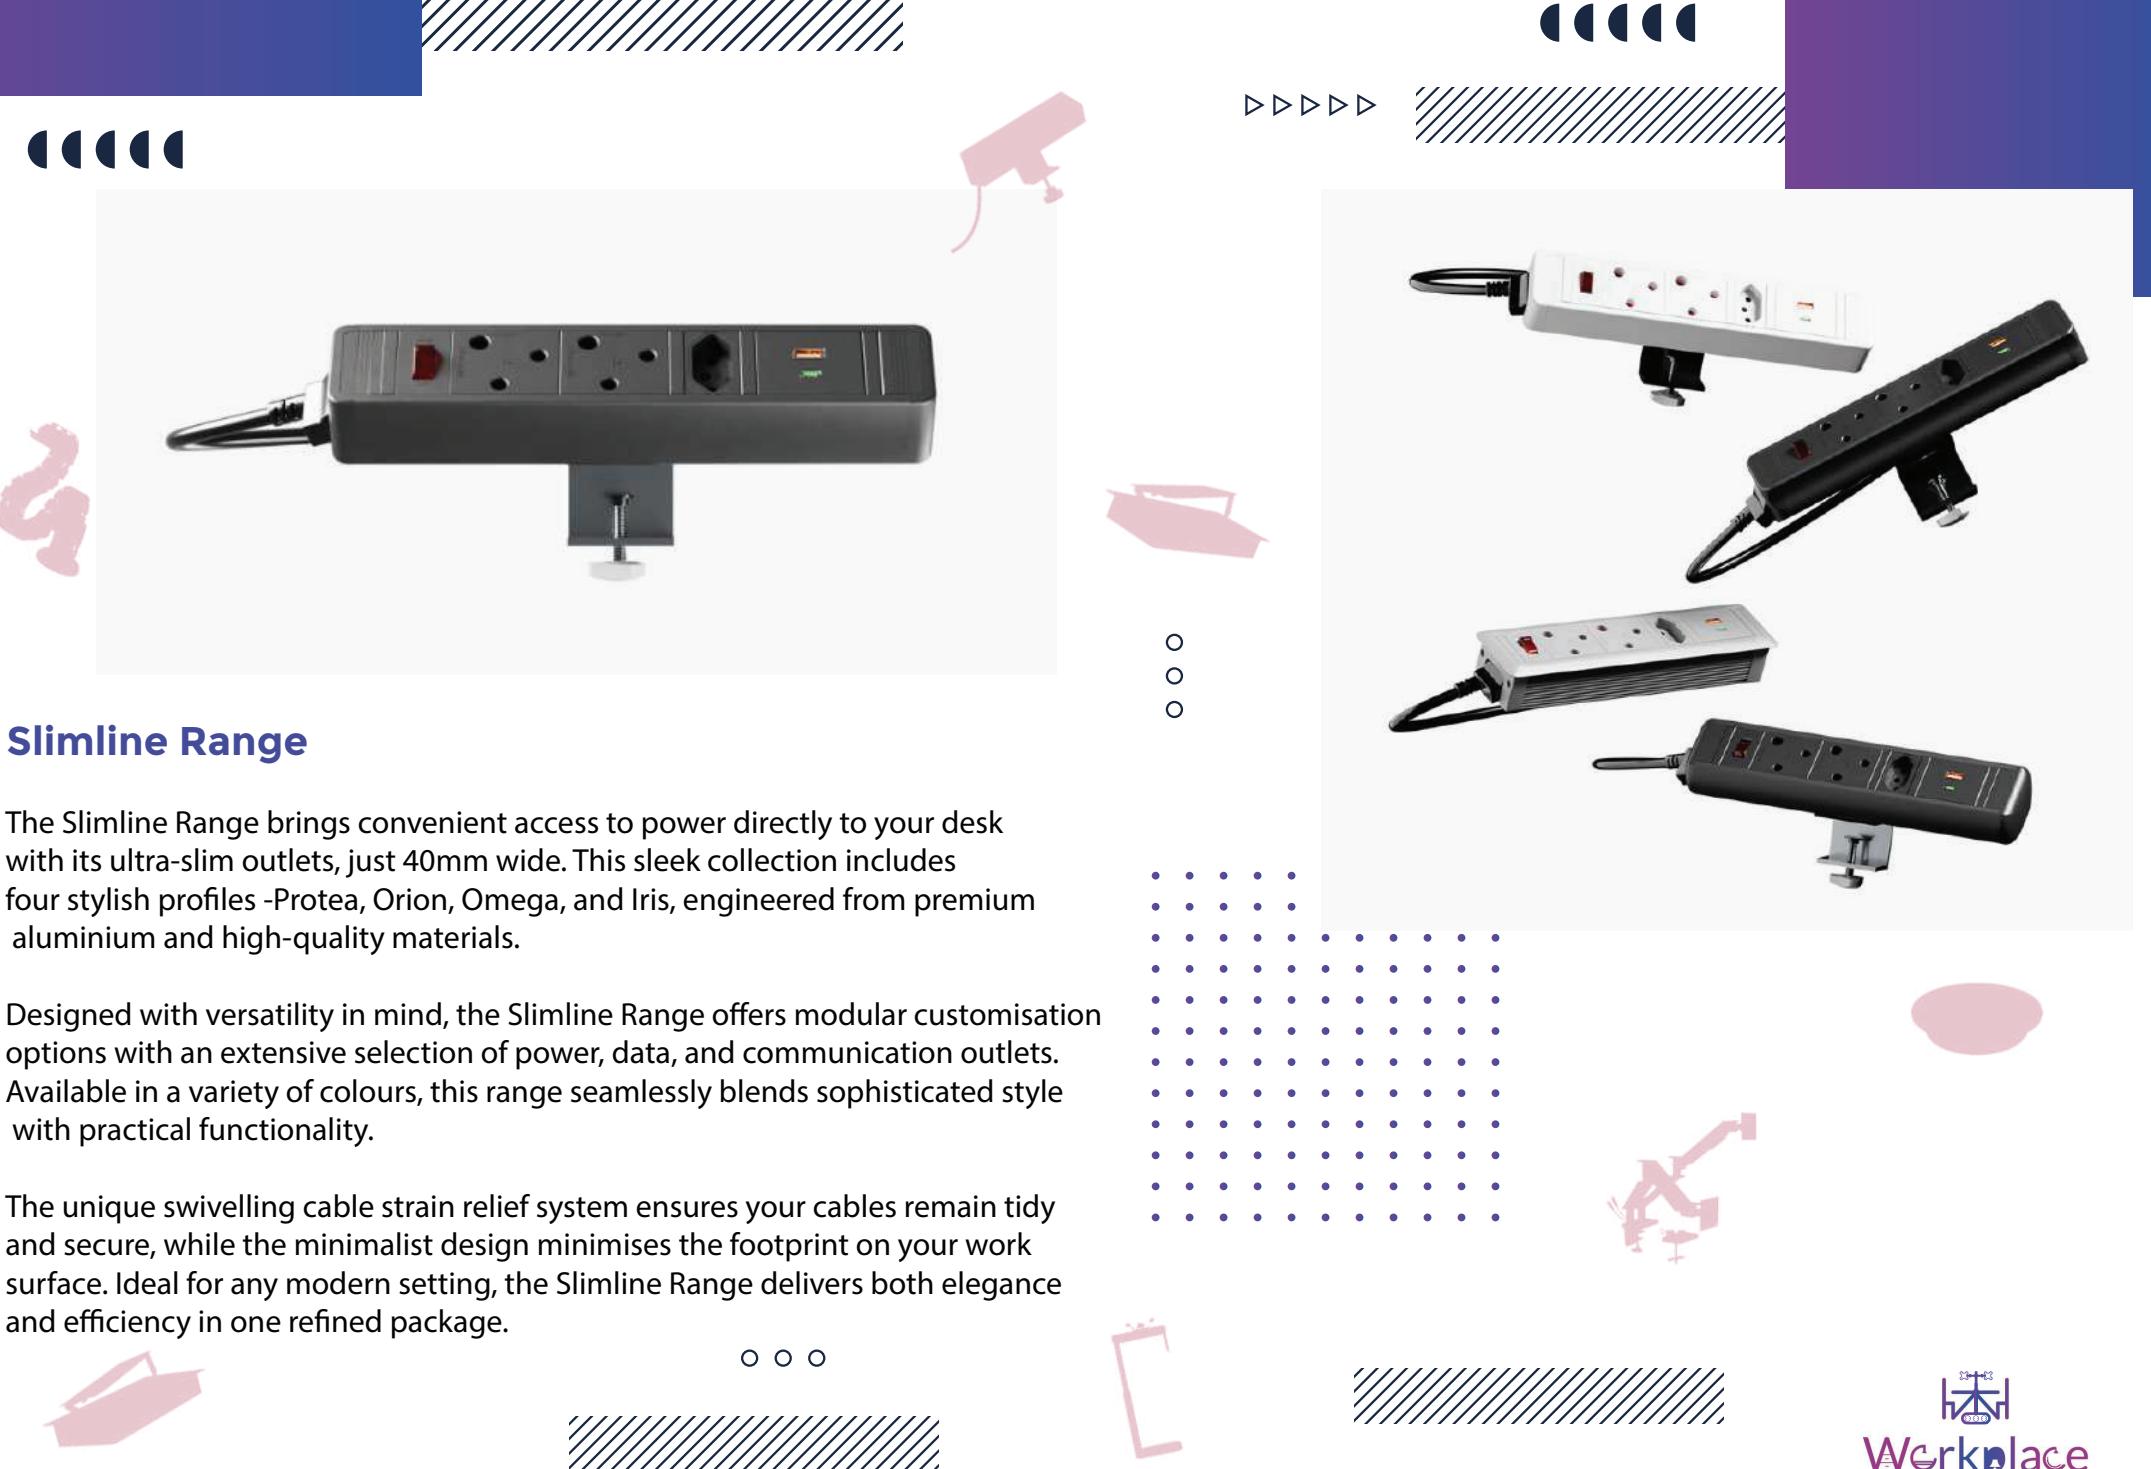

Slimline Range

The Slimline Range brings convenient access to power directly to your desk with its ultra-slim outlets, just 40mm wide. This sleek collection includes four stylish profiles -Protea, Orion, Omega, and Iris, engineered from premium aluminium and high-quality materials.

Designed with versatility in mind, the Slimline Range offers modular customisation options with an extensive selection of power, data, and communication outlets. Available in a variety of colours, this range seamlessly blends sophisticated style with practical functionality.

The unique swivelling cable strain relief system ensures your cables remain tidy and secure, while the minimalist design minimises the footprint on your work surface. Ideal for any modern setting, the Slimline Range delivers both elegance and efficiency in one refined package.

USB-C Multi-Function Docking Station (11-in-1 Hub)

The plug and play USB-C Hub can increase productivity by facilitating the connection of multiple peripherals such as, data syncing, USB ports, Ethernet, SD and even HDMI support. This portable docking stations provides the convenience of connectivity regardless of the location.

Plug and play USB-C hub includes the following 11 connection options:

VGA – HD 1920×1080 resolution
RJ45 Ethernet Port (10/100/1000 Base TX Auto – 1Gbs
HDMI Output – up to 4K UHD resolution 3840×2160 @30Hz or 2K/1080p/720p/480p/360p
USB 2.0 Type-A Port – data transfer up to 480Mbps
USB 2.0 Type-A Port – data transfer up to 480Mbps
USB 3.0 Type-A Port – data transfer up to 5Gbps

Wave Boardroom Power Outlet

In a boardroom, where first impressions and functionality are key, The Wave stands out as a cutting-edge power docking solution. Its sleek, solid aluminium top frame adds a modern touch, while the effortless spring-assisted opening and closing ensure smooth operation.

The Wave is available in various sizes and features a cable brush system that neatly conceals and organizes your connections. It's not just about power; it's about creating a professional environment where every detail contributes to a polished and efficient workspace.

With built-in data and communication options, The Wave ensures that your tech setup is as impressive as your presentation, offering an elegant boardroom power solution.

V-Dock Boardroom Power Outlet

The V Dock is a simple under desk mounted, dual faceted boardroom power unit that can be completely concealed by any cover of the user's design. The unit is fastened to the underside of the work surface under a pre cut aperture(Power Logic does not supply the fastening screws or any form of lid or cover). This unique boardroom power unit is the first of its kind in the Power Logic range that allows the user the option to use the cut out part of the work surface as the lid.
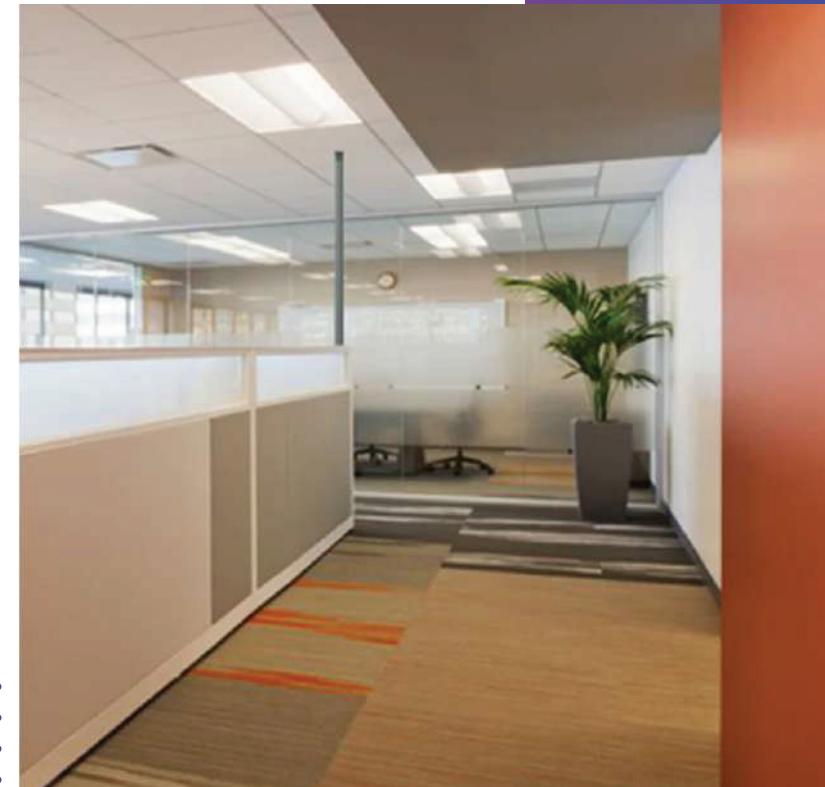

Power Pole Cable Management

The Power Pole range is the most affordable office cable management system in the market that allows for the segregation of power and data cables. These particular products can also be used to store excess cables.

Workplace
Desk to Power

Access Port Cable Management

The Access port is ideal for managing cables while providing you with direct access to power sources located below the work surface. The unit is designed with a sleek silver finish coupled with a black trim to give you that professional look and feel. A cable brush protects your cables while the unit is in the closed position but still allows you full access to your power sources. This affordable cable management solution will certainly declutter any work space.

Wrap-A-Cable Cable Management

The Wrap a Cable product is a cable management solution that allows you to separate and sort all your cables.

The inner bag can accommodate the below while the large bag elegantly organises everything else:

Lightweight data cables
Peripheral cables
Thick core power supply cables
